MAT CLEANING SUPPLIES

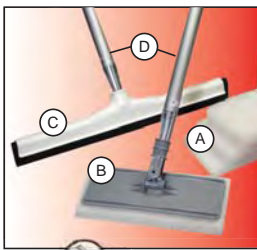

MKT2-S	A - Cleaning Pads (4) B - Cleaning Pad Holder (1)	C - 22" Rubber Squeegee (1) D - Extension Handles (2)
MKT3	D - Extension Handle (1) E - Combination 10" Scrubber & Squeegee (1)	
3102ES-001	F - 1 Gallon Concentrated D-Lead All Purpose Cleaner for cleaning lead contaminated mats	

The natural tack of this polymer mat removes dust and contaminants from the bottom of shoes, carts, pallet jacks and fork truck wheels. No layers to peel away for disposal. Regular cleaning with D-Lead® All Purpose Cleaner or D-Lead® Surface Cleaner maintains the mat's natural adhesion while removing accumulated dust and contaminants.

D-Step™ Mat Features:

- More cost effective than disposable tacky mats
- No layers to peel away and generate static electricity
- Chemical Resistant
- Provides ESD Protection (ElectroStatic Discharge) and dissipates static charges as you walk
- Inhibits the growth of bacteria

Item#: SB-922

boot blaster™

Easy to Operate

Utilities

Standard garden hose (5/8") with 30 - 60 psi water supply, 1 1/2" ID hose for draining waste water.

The Boot Blaster cleans shoe treads using jets of water across the soles of the shoes, while side towers control overspray to keep tops of shoes and pant legs dry.

- Powered by water, no electricity necessary
- Uses fresh or recirculated water
- Cleans up to 4 pair of shoes per minute
- Low average water usage, less than 1 liter per shoe
- Corrosion Resistant Construction
- Cleans virtually any size boot
- Small 9" x 22" foot print
- Stainless Steel Base Plate for secure mounting.
